## 1.1. Organization's background

The organization was established after great demand of development actors being necessary to join hands towards the government efforts and meet the global agenda targets. "TALII" is the Swahili word meaning, the Action of making TOUR for the purpose of visiting interested places and meet people or communities enjoying the quality of life as a result of the collective efforts and measures prior undertaken. For the sake of the Organization to position itself in the broader context, TALII Organization adopted Tanzania Development Vision 2025 and Sustainable Development Goals (SDGs) on setting targets for the successful implementation in align with government efforts.

TALII Organization performing its roles and responsibilities in collaborative manner with government, beneficiary's community, donors and other stakeholders for the sake of improving the life condition of the Tanzanian communities and final testify enjoyment of the people towards sustainable livelihoods and social justice.

### TALII Vision

Tanzanian Communities Enjoy Sustainable Livelihoods and Social Justice

### TALII Mission Statement

To promote and support Tanzanian communities to enjoy sustainable livelihood and social justice through empowerment, networking, service delivery and promotion of rural needy communities.

## 1.2. Core Values

**TALII Organization has seven key guiding principles namely;**

- i. **Integrity:** transparency in operations and distribution of funds; preserving the dignity of the people; respecting values, cultures, and perspectives that may be different from our own;
- ii. **Credibility:** trustworthy, believable and consistent, with reference to the work, message and concepts.
- iii. **Accountability:** empowered and responsible for decision-making to improve delivery of the organization aims and objectives.
- iv. **Partnership;** working with local and international NGO to pursue the common goal.
- v. **Excellence:** continued achievement earning of consistently superior performance resulted from knowledge and learning.
- vi. **Respect of Human Rights:** protect individuals and groups against human rights abuses
- vii. **Teamwork:** working collaboratively including using individual skills in order to achieve a goal.

## 1.3. Past Performance

TALII is a growing NGO with four years since official registration. However, the senior staff are well experienced for number of years in various development sectors at community level, through donor funded projects. Staff are capable in use of participatory approaches for project implementation and management, community mobilization, capacity building for sustainability, designing and construction, undertaking baseline surveys and feasibility studies and financial management.

- The Organization has Strategic Plan 2022-2026 used to address community issues that compromise their livelihoods.
- Administrative Manual and Financial procedure Manuals that make able to deliver timely and quality services with value for money are in place.
- It is well structured organization with clear decision making organs and management systems (Annual General Assembly, Board of Directors and Management team).
- It has good relation with central and local government and our contribution on various events at Local and national level including Women Day have been appreciated.
- The organization managed to conduct first auditing exercise for 2022 in early 2023 done by auditing firm so called “FINCARE & CO of P.O. Box 22228, Dar es Salaam” followed by MS BUSINESS COSULTANCY ASSOCIATES SERVICES of P.O. Box 2613 Arusha, for 2023 and 2024.

#### **1.4. Target Audience and Geographic Focus**

TALII Organization projects are based in some of the most vulnerable communities in Tanzania, especially in rural areas and unplanned settlements. For the 2022-2026 Strategic Plan, the projects will be implemented often in Eight Districts including; Kiteto and Babati District Council (Manyara), Chamwino (Dodoma), Mvomero (Morogoro), Bagamoyo (Coast), Kibondo, Kasulu and, Mtwara ( Mtwara DC and Masasi DC). The areas where our projects will be based for the coming five years have been chosen due to their challenges in livelihoods matters at large.

#### **1.5. The TALII key principles guiding the project selection and operations;**

- i. Poorest and vulnerable communities considered as the primary beneficiaries;
- ii. The focus is to support needy communities and realizing their potentials;
- iii. Conservation and valuing the surrounding environment.
- iv. Gender empowerment;
- v. To respect for beneficiaries’ communities and promoting equality;
- vi. Ensure Community involvement and participation from inception and decisions making.

## **2. THE IMPLEMENTATIONS**

TALII has under this reporting period received funds for programs implementation from members, partnership with RUWASA (Water Projects through Ufundi Stadi na Maendeleo Group), INGO (ELEWA Africa Association, Maji-Hope and Serving Friends).

### **2.1. Implementation under Director’s office**

The office has been able to carry out the organization’s issues like networking with other development partners together with other overall managerial and administrative affairs like organizational capacity building, work related to staff affairs and training. The office has been able to execute its other activities such as fundraising, planning, implementations, supervision and monitoring operations.

During this reporting period the unit has succeeded to secure partnership with; MAJI-HOPE from USA to implement WASH project in Kiteto and Chemba Districts (Lengatei, Mrijo villages).

*Negotiation Meeting – Shoppers Dodoma*

*Meeting with Donors and undertaking needy assessment*

## **2.2. PROJECTS IMPLEMENTATION**

### **2.2.1. Lengatei WASH Project**

The project implemented at Zambia sub village and funded by MAJI-HOPE. The project has a motorized pump that operate with storage tank and domestic points. The project aiming at improving access to clean water, sanitation environment and hygiene awareness. The project is functioning as intended, Women and Girls are now fetching water to the established DPs for domestic use. Key implemented activities are;

- Carrying out community mobilization and sensitization meetings.
- To carry the Hydro geological/ geophysical survey for location of potential borehole drilling sites.
- To conduct borehole drilling and development of one deep borehole at the village.
- To purchase water pipes for trunk main and distribution networks; Submersible water pump, operating generator and installation and, Construction of raiser stand 3m height and placing tank.
- To build community capacity to operate and manage their water supply systems and promote hygiene education

*Water Drilling is successful at Lengatei*

*Excitement from beneficiaries' community*

### 2.2.2. Mrijo Chini School Water and Sanitation Project

The project is found Mrijo Chini Town, Olboroti ward in Chemba District. The project funded by MAJI-HOPE (USA). The aim of the project was to provide students, teachers and staff with improved access to clean water, sanitation facilities, and hygiene education in order to improve the learning environment at schools. Key activities performed includes;

- Development of child-friendly & gender-sensitive water supply facilities (*Deep borehole drilling, pump installation, storage tank placement and putting fetching point*).
- Development of child-friendly & gender-sensitive sanitation facilities (*formation and capacitate of school health clubs*)
- Train pupils, teachers, staff and community members on hygiene education and promotion (*Effective approaches "C2C, CLTS and PHAST" were adapted to improve health and hygiene behaviors among pupils and community at large*)

*It was weekend! Drilling on progress and water found!!!*

*Drilling Machines on arrival at school*

### 2.2.3. Mrijo Chini community Water Project.

The project targeted to reach the community at large instead of supporting the primary school community only. The availability of water for domestic use is challenging at the area; that why MAJI-HOPE and TALII team reached to the said helpful conclusion. Key activities performed includes;

- Carrying out community mobilization and sensitization meetings.
- To carry the Hydro geological/ geophysical survey for location of potential borehole drilling sites.
- To conduct borehole drilling and development of one deep borehole at the village.
- To purchase water pipes for trunk main and distribution networks; Submersible water pump, operating generator and installation.
- Construction of raiser stand 3m height.
- To build community capacity to operate and manage their water supply systems and promote hygiene education

*Water Stand point ready for Community use*

*Pumping line installation and storage tank settings*

*Installed Generator for Water pump operation*

*Hydrological & geophysical survey interpretation*

## 2.2.4. MUUNGANO, MSOKOSELA AND MSANGA COMMUNITY WASH

The project funded by RUWASA through agreement made to Ufundi Stadi na Maendeleo which is the professional group formed by TALII Organization to access livelihoods projects from government as advertised officially through government procurement system (NEST). Three projects awarded namely;

- Tender NO. TR140/014/2023/2024/NC/42 for provision of construction service (local fund) for construction MUUNGANO Water Supply Project in Mtwara District
- Tender Number TR140/014/2023/2024/NC/47 for provision of construction services (local fundi) for construction of structure at Msokosela and Msanga Villages in Masasi District
- Tender NO. TR140/014/2023/2024/NC/48 for provision of construction service (local fundi) for excavation and backfilling of trench and pipe installation at Msokosela and Msanga villages in Masasi District.

Based on flexibility of the concluded contract and project administration requirements, the group decided to implement in partnership with TALII Organization.

The project implemented through the force account system where by implementer and Supplier for materials found through NEST. The project comprised of capacity building, sensitization meetings and construction works (structures like; storage tanks, Valves Chambers, Bicons, Supporting poles, pump house, water kiosks and domestic points establishment) and establishment of gravity reticulation system from water sources to the proposed destinations. The target was to reach more than 12000 direct population and over 16,000 indirect population (male, female and children) with clean and safe water for domestic and livestock uses.

The scope of the works focused on detailed Engineering design and construction such as; carry out of feasibility study so as to prepare design equitable for a transmission main of 28000m (route distance), Design and preparation of detailed drawings, prepare bills of quantities; cost estimation, Site supervision, regular follow-ups, monitoring and report writing.

*Main line testing and Air valves installation work*

*Pipe fixing & junction establishment*

*Pump House inspection after completion*

*Water Kiosk for community use*

*100m<sup>3</sup> storage tank constructed (Msokosela)*

*Trench excavation for water pipes installation*

### 2.2.5. Contribution to Celebration of International Women's Day 2023

The celebration at the district level was held in Partimbo ward, Kimana village at the public ground and the theme for 2024 was **“Invest in Women. Accelerate progress”** **“Wekeza kwa Wanawake: KuharakishaMaendeleo ya Taifa na Ustawi wa Jamii”**. The theme highlights the importance of investing in women to address global challenges and accelerate progress towards a more equal and sustainable world.

### 2.2.6. Other activities

Other general activities performed by the organization includes;

- a) **Attending Annual NGO Forum 2024;** the theme for the 2024 Annual NGO Forum in Tanzania was "Non-Governmental Organizations are Key Stakeholders; Involve Them in Enhancing Good Governance". The forum, held in Dodoma at the Jakaya Kikwete Convention Center, focused on the important role of NGOs in development and the need for collaboration between NGOs and the government. The forum aimed to highlight the impact of NGOs and explore ways to strengthen their partnerships, particularly in areas like education, climate change, WASH, AI and digital learning.

*With Manvara NACONGO Leaders IN DODOMA*

*NACONGO meeting at Regional level*

- b) **Attending Webinar meeting hosted by the Foundation for Civil Society (FCS):** it was the online meeting with focus of sharing information on how to partner and access funding opportunities from FCS. FCS is an independent Tanzanian non-profit organization that provides grants and capacity building services to civil society organizations (CSOs) so as to enhance their effectiveness in enabling engagement of citizens in development processes.
- c) **Designing and printing of the TALII Posters, T-shirts and Caps:** the aim was to promote the organization as well as raising funds for operational expenses.
